ESD

• SD-problems - societal problems - collective decision making
Teaching democratic competence

• Students who have the competence and the will to participate in discussions and decision making regarding sustainable development of the society

• Action competence
Teaching for action competence

1. Critical knowledge and skills
2. Arguing skills
3. Respect - opinions
4. Decision skills
Critical skills

• Students will be exposed to a variety of opinions on one issue: “clarification of values” cases in real life

• Students will train to identify interests: by comparing
Teaching arguing skills

• Learning to listen
  Report from a group discussion

• Learning to use knowledge in arguing
  Role-play, Scenarios
Teaching respect for each other

- An important rule in democratic decision making is that everybody shall be treated with respect.

- Distribute the voices of the students equal in the classroom.

- Treat all serious questions, answers etc. with respect even if they are wrong.
Teaching decision skills

• Actions competence requires that the students will get a chance to train in making responsible decisions and to make justifications of them by using knowledge from different areas

• Examples of exercises: Role-play, actions in the local environment, exercises for clarification of values
