Teaching and learning in the face of wicked socio-ecological problems
Interests, dreams, ambitions, opportunities

- What are important topics, issues, questions, challenges... in ESE research in relation to this ITN's focus on teaching and learning in the face of wicked socio-ecological issues?
- What are exciting ways to address these? Or: What would you really want to do? What kind of ITN research collaboration would be in line with your interests, passion, commitment?
- How would you like to 'benefit' from this ITN? What kind of activities would be helpful for you and your research?
- What are interesting opportunities that we should explore (funding, events, publications, networks...)?
